

CASE DOSSIER ID:	LI-NG-2026-8492-SAMPLE	TARGET PARCEL:	Plot 42, Coastal Road Corridor, Lekki
JURISDICTION:	Lagos State, Nigeria (Ibeju-Lekki Axis)	DISCLOSED VENDOR:	[REDACTED FAMILY ATTORNEY]
AUDIT TIMESTAMP:	2026-09-26 Certified Algorithmic Engine v2.4	INSTRUMENT:	Deed of Assignment + Registered Survey

ACQUISITION DECISION GUIDANCE & RISK SCORE

DO NOT WIRE CLOSING FUNDS - CRITICAL STATUTORY DEFECTS FOUND

Algorithmic cross-referencing identified a 118-meter coordinate shift on the survey beacons intersecting a gazetted coastal arterial highway setback. In addition, the Deed of Assignment cites an unexcised family root-of-title lacking Governor's Consent under the Land Use Act 1978.

68

HIGH RISK / 100

SECTION 1: CADASTRAL BEACON PARSING & CLOSURE PRECISION (UTM 31N)

BEACON ID	EASTING (X)	NORTHING (Y)	DATUM & ZONE	STATUS VERDICT
PB 10492-LS	592,841.12 m E	714,920.84 m N	Minna Datum (UTM 31N)	FLAGGED: 118m Shift
PB 10493-LS	592,886.40 m E	714,915.20 m N	Minna Datum (UTM 31N)	FLAGGED: In Road Buffer
PB 10494-LS	592,881.05 m E	714,885.60 m N	Minna Datum (UTM 31N)	FLAGGED: Setback Overlap
PB 10495-LS	592,835.70 m E	714,891.24 m N	Minna Datum (UTM 31N)	Verified Closure Point

SECTION 2: CROSS-DOCUMENT DISCREPANCY & CONTRADICTION MATRIX

1. Plot Number Concordance Failure

[SEVERITY: CRITICAL]

Survey Plan references Plot 42, Block 3 (Cadastral Layout), while Deed of Assignment purports to convey Plot 24, Block 3. This mismatch exposes the purchaser to competing ancestral ejectment claims.

2. Statutory Authority Consent Non-Compliance

[SEVERITY: CRITICAL]

Vendor cites family title without registered Power of Attorney from the Principal Family Head. Under the Land Use Act 1978, conveyance is legally incomplete without Governor's Consent endorsement.

3. Dimension Discrepancy (149.58 m² Variance)

[SEVERITY: WARNING]

Deed covenants transfer of 1,500.00 m², but mathematical polygon closure from survey beacons calculates exactly 1,350.42 m², indicating paper inflation of property size.

SECTION 3: MANDATORY QUESTIONS FOR BUYER'S SURVEYOR & LAWYER

- Q1 (For Surveyor): Chart beacon PB-10492-LS directly against the Lagos State Regional Masterplan Gazette to confirm whether the plot encroaches on the 60m Coastal Road reserve corridor.
- Q2 (For Surveyor): Pick up actual coordinates on site using GNSS RTK to determine if physical boundary matches paper coordinates.
- Q3 (For Property Lawyer): Conduct official search at Lands Registry Alausa to verify if the vendor holds a registered Power of Attorney from the documented root of title.
